Pediatric ICD-10-CM 2021

A Manual for Provider-Based Coding, 6th Edition

Spiral-bound, available September 2020—562 pages
 MA0989
 Book ISBN 978-1-61002-448-8
 eBook ISBN 978-1-61002-449-5
 Price: \$116.95 **Member Price: \$93.95**

This completely updated 6th edition includes all 2021 updates for pediatric ICD-10-CM codes as well as recently created COVID-19 coding guidance and a new chapter on codes for special purposes, such as vaping-related disorders. This edition also includes hundreds of additional codes that apply to pediatrics and a designation to easily identify those codes linked to social determinants of health.

For the pediatric provider, coder, and biller, here's the most helpful and easy-to-use manual on ICD-10-CM yet. Featuring a laser-sharp pediatric focus, it provides codes and guidelines in a simplified yet familiar format. The combination of hallmark features and easy-to-use format makes facing the challenge of accurate diagnostic coding easier.

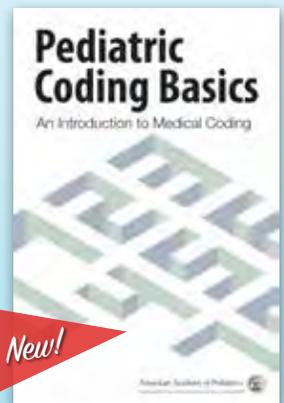

This important guide condenses the vast ICD-10-CM code set into only pediatric-centered guidelines and codes. It has been reorganized to include the guidelines directly at the chapter and code level. Tabular, indexed navigation helps you find needed items fast.

Pediatric Coding Basics

An Introduction to Medical Coding

This new book was developed for pediatric health care professionals who are new to coding or have taken on additional coding responsibilities. It begins with an overview of medical coding, followed by a more detailed review of the different types of codes commonly used in pediatrics. It discusses how to effectively use different codes together, and it discusses health plan policies and coding compliance. Earn an AAP Certificate of Completion after taking an online assessment.
